

Trust Science

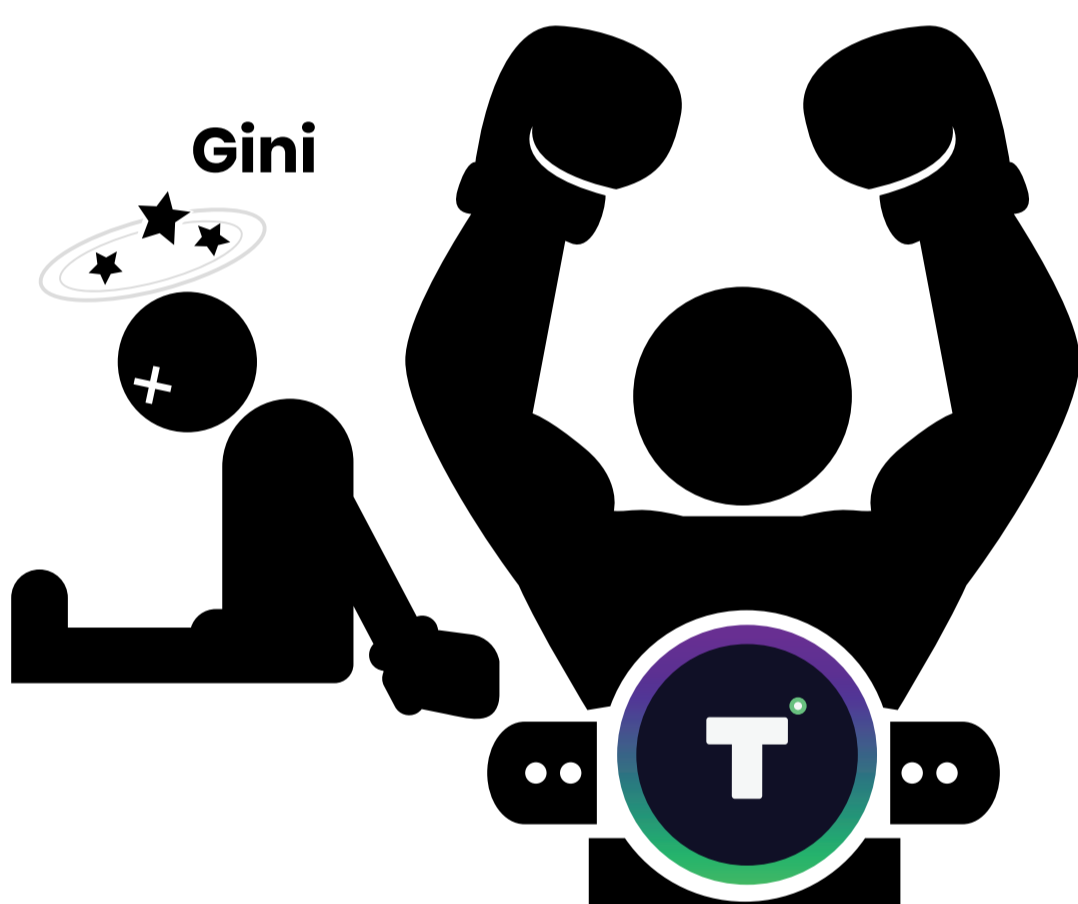

Traditional Scores

Trust Science vs ROC

16% +

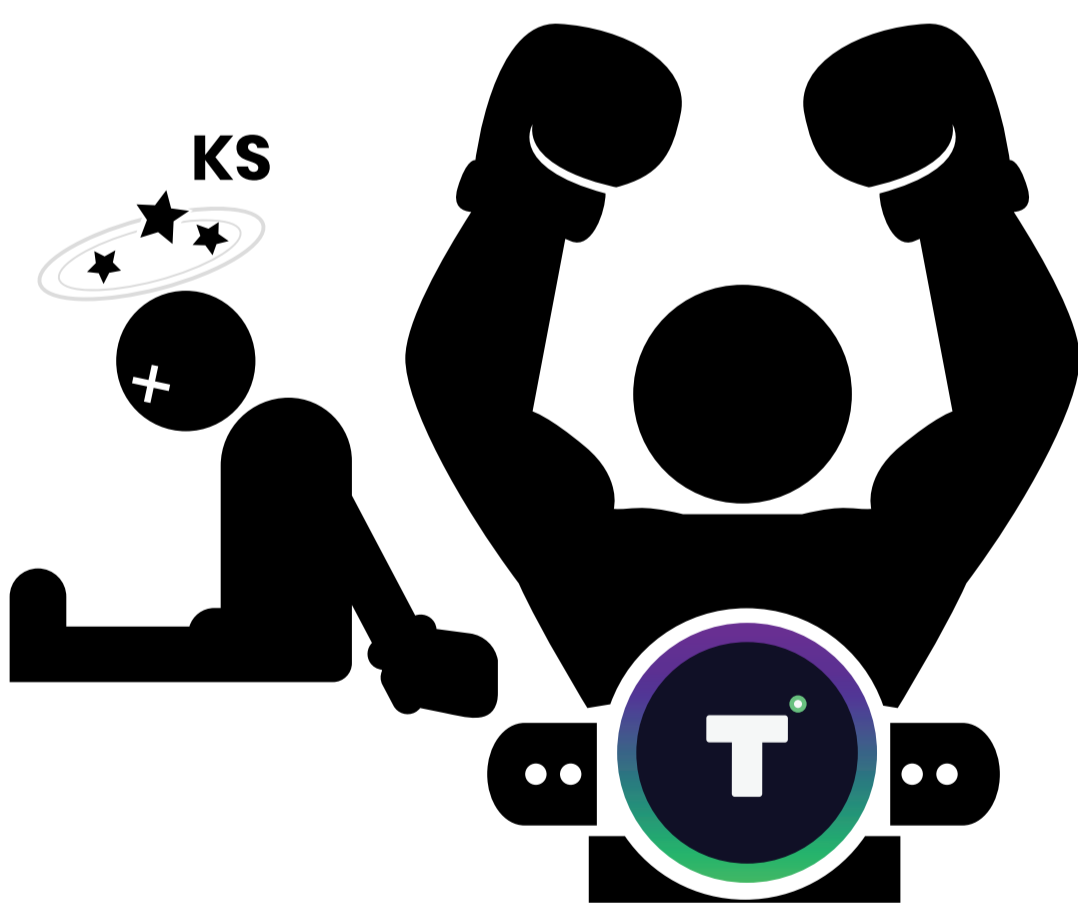

Trust Science showed a 16% gain in performance against ROC with a customer's data set.

Trust Science vs Gini Coefficient

76% +

Trust Science showed a 76% gain in performance against Gini Coefficient with a customer's data set.

Trust Science vs KS Statistics

90% +

Trust Science showed a 90% gain in performance against KS Statistics with a customer's data set.

When it comes to knowing when you should say "yes" or "no", Trust Science wins hands down. We know it's about performance, not about more "YESes" and less "NOs".
